PREFACE.

THE issue of the present enlarged edition of the COUNTY DIRECTORY OF SCOTLAND has been necessarily deferred, owing to the numerous alterations consequent upon the rapid extension of the Telegraph system throughout the Country during the past twelve months. For, while the maintenance of its recognised position as a *Postal* Directory has as much as ever been kept in view, the further object now aimed at is to place before the Public, in a convenient form for reference, such particulars as will render the work equally useful as a *Telegraph* Directory, and thus supply a want beginning to be increasingly felt under the new Government scheme of Post Office Telegraphs.

In carrying out a plan embracing such a multiplicity of details, it must be evident that a few errors and omissions, especially as regards *distances*, are unavoidable, notwithstanding any amount of pains that may be taken to secure accuracy; and in reference to this, the Publishers beg to say that corrections forwarded to them (accompanied by properly authenticated statements of distances) will be carefully noted for future use.

A complete List of the Postal Telegraph Offices opened in Scotland to the present time has been embodied alphabetically in the First Part; and the Professional and other statistics, revised and corrected, are reproduced, forming, as heretofore, a comprehensive Clerical, Legal, Medical, and Banking Directory.

The latter particulars are, as formerly, omitted in the cases of Edinburgh, Glasgow, Aberdeen, and Dundee, for which cities local Directories are published.

The Royal and Parliamentary Burghs and Populous Places in Scotland, where the General Police and Improvement (Scotland) Act, 1862, is, in whole or in part, in force, are now also denoted, with the names of their respective Chief Magistrates and Town Clerks, and the Population of each according to the Census of 1871.

Another important feature to which notice is directed, is the new Map of Scotland, prepared expressly for this work by Messrs. W. & A. K. Johnston, in which the various Postal Telegraph Offices are indicated, and the different Railway Systems distinctively laid down,—an addition which it is thought cannot fail to enhance the value of the publication.

The Publishers have again to express their grateful acknowledgments to the Noblemen and Gentlemen who have favoured them with information; to the Post Office Authorities, for whose valuable recognition and support they are so much indebted; and, not least, to the Postmasters of Scotland, without whose cordial co-operation and assistance the production of such a work would scarcely have been practicable.

107 PRINCES STREET, EDINBURGH,
May 1872.

EXPLANATIONS.

THE present Edition of this work having been compiled for the combined purposes of a *Postal* and *Telegraph* Directory, the arrangement differs materially from that observed in previous Editions and attention is therefore specially directed to the following particulars:—

I. THE POSTAL DIRECTORY.

Throughout the *First* Part of the Directory the postal address appears, as formerly, between the colons, after the name of the residence, and this is followed by the name of the owner or occupant. In the *Second* Part this order is *reversed*, the name of the owner or occupant appearing first, followed by the residence and postal address.

(The places in the postal address, now printed in *italics*, are in every instance *Telegraph Offices*, but their being thus indicated does not interfere with their use for postal purposes. For a further explanation regarding them, *see* Par. II. 'Telegraph Directory.')

Note.—As a general rule, the last word in the address of every letter, etc. should be the name of the Post Office from which the letter is to be delivered; and the Directory has been prepared with this view, giving in each case the postal address a letter should bear to ensure direct transmission to its destination. The name of the County is added in the instances in which it is requisite or desirable that this should form part of the address either from the Delivery Office not being well known, or from its similarity to another place,—as, for example, to distinguish places of such names as 'Inverurie' in Aberdeenshire, and 'Inveraray' in Argyllshire; or places with names so much alike as sometimes to be mistaken when not distinctly written,—as Largs in Ayrshire, and Largo in Fife.

Letters for Scotland, posted in England or Ireland, should have the name of the Country, or the letters 'N.B.,' added to the other part of the address.

The names of the Post Towns and Sub-Post Offices in Scotland (distinguishing Money Order, Savings Bank, and Insurance and Annuity Offices) are inserted in the First Division of the Directory in the order in which they occur in the alphabetical arrangement. With few exceptions all the Delivery Offices in the postal addresses are Money Order Offices, but sometimes there is a Money Order Office nearer the residence than the Town in the postal address. In these cases, such Money Order Office is added (along with the Telegraph Office, when necessary), prefixed by the letters M.O.O., for the information of persons who may wish to remit money to the neighbourhood.

For further Postal information, see Appendix at the end of the Directory.

II. THE TELEGRAPH DIRECTORY.

In this, the object is to furnish the name of the Postal Telegraph Office nearest to each residence or place, together with the distance therefrom. Where the Post Town and the Telegraph Office are *identical*, the name is printed in *italics;* but when this is not the case, the name of the nearest Telegraph Office is given in addition (also in italics), prefixed by the letters T.O. The figures in either case, denote the distance in miles between the Telegraph Office and the place named and when a cipher (0) appears, it means that the distance is under one mile.

The names of the Postal Telegraph Offices throughout Scotland at which Telegraphic business is conducted by Officers of the Post Office—as well as Railway Stations at which Telegrams are collected and delivered by the Railway Companies on behalf of the Postmaster-General—are printed as they occur in the alphabetical arrangement, in *ITALIC CAPITALS.*

At the Stations where Messages can only be received for *transmission*, but from which there is *no delivery*, the circumstance is noted by the words 'Collecting Office only.'

The Telegraph Offices in Orkney and Shetland are also included in the alphabetical order although they do not form part of the British Postal Telegraph System, but belong to the Orkney and Shetland Islands Telegraph Company.

Particulars as to Telegraph Rates and Regulations are annexed.

THE

COUNTY DIRECTORY OF SCOTLAND.

✻ *Indicates Post-Offices at which Money-Order and Savings-Bank business is transacted.*
‡ *Denotes those which are also Insurance and Annuity Offices.*
The Postal Address appears between the Colons, after the name of the Residence or Place. Where the Post-Town and the Telegraph Office are identical, the name is printed in ITALICS; but when not, the nearest Telegraph Office is added (also in Italics), prefixed by the Letters T. O. The Figures, in either case, denote the distance in miles between the Telegraph Office and the place named. When a Cipher (0) appears, it means that the distance is under one mile.
The names of Postal Telegraph Offices (including Railway Stations where business is transacted on behalf of the Postmaster-General) are printed as they occur in the Alphabetical arrangement, in ITALIC CAPITALS.

II.—CIRCULATION OF LETTERS IN SCOTLAND.

1. The deliveries and despatches of letters, etc. in Scotland are for the most part regulated by the hours of the day and night mails from and to London *via* the London and North-Western Railway, excepting the counties of Berwick, Selkirk, and part of Roxburgh and Haddington, the south mails for which, as well as the local letters, are conveyed by the North-Eastern and North British Railways. The branch posts throughout the country, as a general rule, work *from* the arrival and *to* the despatch of one or other of the London mails, diverging from the various points on the main lines of communication between Carlisle and the south-west of Scotland on the one hand, and Edinburgh, Aberdeen, and the northern counties on the other.

2. The first, or *Day* mail, leaves the General Post Office, London, at 8.30 A.M., arriving at the intermediate stations between Carlisle and Aberdeen late the same night or early the following morning, reaching Inverness at 9 A.M., and Helmsdale (the present northern extremity of the railway system in the United Kingdom) at 2.25 P.M. The return up mail, leaving Inverness at 12.15 P.M. and Aberdeen at 4.10 P.M., proceeds southwards from Carstairs Junction, with the mails despatched from Edinburgh and Glasgow respectively, at 9.10 and 8.45 P.M., arriving in London at 9.40 A.M.

3. The second, or *Night* mail, leaving the General Post Office, London, at 8.40 P.M., arrives at Dumfries, Glasgow, Stirling, Perth, and Dundee, in time for a morning or early forenoon delivery (in Edinburgh *both* the London mails are delivered together, the distribution commencing about 8 A.M.); at Aberdeen at 12.20 P.M.; at Inverness at 2.45 P.M.; and at Helmsdale at 8.10 P.M. The return *up* mail is despatched from Helmsdale at 5.10 A.M.; from Inverness at 10.18 A.M.; from Aberdeen at 12.23 P.M.; and from Edinburgh and Glasgow at 5.50 and 5.43 P.M. respectively, arriving in London at 4.37 A.M. There is no delivery of letters in London on Sundays.

4. The postal communication between Fifeshire, Edinburgh, and the eastern counties of Scotland, and the north-eastern counties of England, is chiefly by the North-Eastern and North British Railways. The trains (conveying also the *London* mails for Berwickshire, Selkirkshire, and part of Roxburgh and Haddington shires) arrive in Edinburgh at 10.48 A.M. and 8.30 P.M., and depart at 2.5 P.M. and 6.30 P.M.

Irish Mails.

5. Letters between Scotland and Ireland are despatched and received by both the London mails *via* Holyhead. Letters for Belfast and the north of Ireland, posted in Edinburgh up to 6 P.M., in Glasgow up to 6.15 P.M., and in the north in time for the London up night mail, are sent *via* Greenock and Belfast by steamer, leaving the former place at 9 P.M., daily, Sundays excepted. A return mail is received from Belfast and the north of Ireland at Greenock at 5 A.M., except on Monday mornings.

Mails for the Orkney Islands.

6. The mails are despatched daily (excepting Sunday) from Thurso in Caithness, at 9.40 A.M., returning from Stromness at 4.45 A.M. The distance is 30 miles.

Mails for the Shetland Islands.

7. The mails for the Shetland Islands are despatched from Aberdeen every Friday evening, arriving at Lerwick on Sunday morning; returning from Lerwick to Aberdeen every Monday at 6 and 10 P.M. alternately. The steamer calls also at Kirkwall on the outward trip on Saturday, and on the homeward trip on Tuesday.

Mails for Skye and the Hebrides.

8. The Skye mails are now transmitted daily (Sundays excepted) by railway to the terminus of the line at Strome Ferry, whence the steamer conveys them, thrice a week in winter and six days a week in summer, to Broadford and Portree.

The mails for the Long Island are conveyed between Dunvegan in Skye and Lochmaddy in North Uist, by sailing packet three times a week throughout the year.

Mails to and from the island of Lewis are conveyed between Ullapool and Stornoway five days a week from 1st April to 30th September, and three days a week during the remainder of the year. The excepted days in summer are Saturday and Sunday. In winter the packet leaves Ullapool on Tuesday, Thursday, and Saturday mornings, and returns on Monday, Wednesday, and Friday in time for the despatch of the South mail in the afternoon. There is also a postal communication with Lewis by steamer between Greenock and Stornoway, twice a week in summer and once a week in winter.

III.—RATES OF POSTAGE, AND CONDITIONS OF TRANSMISSION.

Inland Letters.

9. The rates of postage to be prepaid are as follows, viz.:

For a letter not exceeding 1 oz.						1d.
,,	exceeding 1 oz.	but not	exceeding	2 oz.		1½d.
,,	,,	2 oz.	,,	,,	4 oz.	2d.
,,	,,	4 oz.	,,	,,	6 oz.	2½d.
,,	,,	6 oz.	,,	,,	8 oz.	3d.
,,	,,	8 oz.	,,	,,	10 oz.	3½d.
,,	,,	10 oz.	,,	,,	12 oz.	4d.

A letter *exceeding* the weight of 12 oz. is liable to a postage of 1d. for every ounce, beginning with the first ounce. A letter, for example, weighing between 14 and 15 ounces, must be prepaid fifteen-pence.

A letter posted unpaid is chargeable on delivery with double postage; and a letter posted insufficiently prepaid is chargeable with double the deficiency. On re-directed letters the charge for re-direction (an additional postage at the prepaid rate) is the same whether prepaid or collected on delivery.

No letter may exceed the dimensions of 1 foot 6 inches in length, 9 inches in width, and 6 inches in depth.

Colonial and Foreign Letters.

10. For the rates on these letters, reference is recommended to be made to the *British Postal Guide*, published quarterly by command of the Postmaster-General, price 6d.

Newspapers.

11. All newspapers registered at the General Post Office, London, printed and published in the United Kingdom at intervals not exceeding seven days, and on a sheet, or sheets, unstitched, may be sent by post, singly or in a packet, within the United Kingdom, for a postage of one halfpenny for each newspaper on each transmission, prepaid either by an adhesive stamp or by the use of a stamped wrapper. A packet containing two or more registered newspapers is not chargeable with a higher rate of postage than that chargeable on a book packet of the same weight. A newspaper posted unpaid, and a packet of newspapers posted either unpaid or insufficiently paid, will be charged with the unpaid rate applicable to book packets. The title and date of every publication must be printed at the top of every page, and it must be folded in such a manner that the title may be readily inspected. It must either have no cover, or be in a cover open at the ends, and contain no enclosure, except any supplement belonging to it. If it contain any other, such enclosure will be taken out and charged on delivery as an unpaid letter. A newspaper which has any letter, or any communication of the nature of a letter, written in it or upon its cover, will be charged as an unpaid or insufficiently paid letter. No packet of newspapers must exceed 14 lb. in weight, 2 feet in length, and 1 foot in width or depth.

Registration for inland circulation includes registration for transmission abroad. Newspapers for foreign countries and the colonies are subject to the same general regulations as for inland circulation; excepting that for foreign transmission a newspaper may be published at intervals of 31 days, and that it (but not its supplement) may be printed on sheets stitched together. It must be posted within eight days from the date of publication, including the day of publication. No packet of newspapers must exceed 2 feet in length, or 1 foot in depth or width.

For the rates on newspapers going abroad, reference should be made to the *British Postal Guide.*

Inland Book Post.

12. The rate of postage is one halfpenny for every 2 oz. or fraction thereof, and must be prepaid in stamps.

If not sufficiently paid, double the deficiency will be charged; and if sent unpaid, a double rate is charged. All letters or sealed enclosures in a book packet are forbidden. If this rule is infringed, the entire packet will be treated as a letter. If any letter is written on a book or its cover, it will be charged unpaid letter postage. Entries, however, merely stating who sends the book, etc., or to whom it is given, are not regarded as a letter.

Every packet must be entirely open at both ends, and put up in such a manner as to admit of the contents being easily withdrawn for examination, otherwise it will be treated as a letter.

Circulars are admissible at the book rate, if in identical terms, and the whole or greater part be printed, engraved, or lithographed.

A book packet in dimensions must not exceed 6 inches in depth, 9 inches in width, 18 inches in length, and 5 lb. in weight.

The inland pattern and sample post has been abolished.

For information respecting rates of postage and regulations applying to book packets for places abroad, see the *British Postal Guide.*

Colonial and Foreign Pattern Post.

13. The pattern and sample post is restricted to *bona fide trade patterns or samples of merchandise.* Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another, which may not actually be patterns or samples, are not admissible.

The postage must be prepaid, either by adhesive stamps or stamped wrapper, or combination of both.

Patterns or samples, when practicable, must be sent in covers open at the ends, and so as to be easy of examination.

Post Cards.

14. Post cards which bear a halfpenny impressed stamp are available for transmission between places in the United Kingdom only.

Nothing is allowed to be written or printed on the front (or stamped) side *but the address only.* On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed; but such communication must not extend to the front side. Nothing whatever may be attached; nor may the card be folded, cut, or otherwise altered. If any of these rules be infringed, the card will be charged 1d. on delivery.

The charge for post cards is 6½d. per dozen. No single cards sold.

Postage Stamps, Wrappers, and Envelopes.

15. Postage labels are issued of the respective values of ½d., 1d., 1½d., 2d., 3d., 4d., 6d., 9d., 10d., 1s., 2s., and 5s.

Stamped envelopes are made of four sizes, and are sold at 2s. 2d. per packet of 24.

Newspaper wrappers bearing an impressed halfpenny stamp are sold at the rate of 4s. 4½d., 4s. 5d., or 4s. 5½d. per 100, according to size. But a discount of 1 per cent. is allowed on purchase of not less than £10 worth of either labels or wrappers.

It is no longer legal to use for postage any embossed or impressed stamp cut out or otherwise separated from any cover, paper, or card on which it was embossed. Postage stamps are purchased from the public at the various Money Order offices throughout the country, but no *single* stamps can be purchased; they must in all cases be presented in strips of at least two stamps adhering to each other.

IV.—REGISTRATION.

16. By the prepayment of a fee of fourpence, any letter, newspaper, or book packet may be registered to any place in the United Kingdom or the British Colonies.

Registered letters must be prepaid as regards both postage and registration fee: in the case of inland letters such prepayment must be by stamps, but in the case of foreign letters it may be either in money or in stamps.

The registration of a packet makes its transmission much more secure; and the loss of a registered packet is a very rare occurrence. Nevertheless, by Act of Parliament, the Post Office is not responsible for the safe delivery of registered packets. Sent in *unregistered* letters, valuable articles are exposed to risk; and the Department cannot in any way undertake the safe conveyance of such packets.

Every letter to be registered should be presented at the window, and a receipt obtained for it, and on no account be dropped into the letter-box, otherwise it will be charged a double registration fee of eightpence.

No letter-carrier, rural messenger, or other servant of the Post Office is allowed to carry a letter for any person to be registered.

V.—MONEY ORDERS.

17. The commission on inland money orders is—

For sums under 10s.	. . . 1d.	For sums of £5 and under £6,	. . 7d.
,, of 10s. and under £1,	. 2d.	,, ,, £6 ,, ,, £7,	. . 8d.
,, ,, £1 ,, ,, £2,	. 3d.	,, ,, £7 ,, ,, £8,	. . 9d.
,, ,, £2 ,, ,, £3,	. 4d.	,, ,, £8 ,, ,, £9,	. . 10d.
,, ,, £3 ,, ,, £4,	. 5d.	,, ,, £9 ,, ,, £10,	. . 11d.
,, ,, £4 ,, ,, £5,	. 6d.	,, ,, £10	. 1s.

No order is allowed to contain a fractional part of a penny.

With certain exceptions, no money order can be issued unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter and the payee, together with the remitter's address.

An order once issued cannot be cancelled.

The holder of a money order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus presented, the question put on the presentation of an ordinary money order is dispensed with.

Money orders do not require a receipt stamp.

No application can be entertained for compensation for alleged injury from the nonpayment of a money order at the expected time.

After once paying a money order, by whomsoever presented, the Office is not liable to any further claim.

VI.—POST OFFICE SAVINGS BANKS.

18. These banks are established under the provisions of the Act 24 Vict. cap. 14, intituled '*An Act to grant additional facilities for depositing small Savings at interest, with the Security of the Government for the due Repayment thereof,*' and are open daily during the hours appointed for money order business for the receipt of deposits of one shilling, or any number of shillings, subject of course to the limitations of amount prescribed in the Acts previously in force for Savings Banks.

VII.—GOVERNMENT INSURANCES AND ANNUITIES.

19. The Postmaster-General is empowered, under the Act 27 and 28 Vict. cap. 43, to insure the lives of persons of either sex between the ages of 16 and 60 for not less than £20 or more than £100. He is also empowered, under the same Act, to grant immediate or deferred annuities of not more than £50 on the lives of persons of either sex, and of the age of 10 years and upwards. The persons whose lives are insured or to whom annuities are granted by the Postmaster-General, have direct Government security for the payment of the money at the proper time.

VIII.—SUGGESTIONS TO THE PUBLIC, ETC.

Facility is given to the Post Office in the discharge of its daily duties, and greater security afforded to the public, by careful attention to the following recommendations :—

1st. To post all letters, etc. as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars. The trouble of the Office is much diminished if circulars, before being posted, be tied in bundles, with the addresses all in one direction.

2d. To make the address legible and complete, giving the name of the post town; and if there be more than one town in the kingdom of that name, or if the post town be not well known, adding the name of the county.

3d. To see that every letter, newspaper, or other packet sent by post is securely folded and fastened. When postage stamps are remitted, they should be enclosed in paper sufficiently thick to prevent them from being seen or felt through the cover.

4th. Never to send money or any other article of value through the post, except either by means of a *money order* or in a *registered letter.*

5th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish to the Secretary information as precise as possible regarding all the facts of the case, and to enclose whatever documents may throw light upon it.

6th. To see that every letter contains the full address of the writer, in order to ensure the return of the letter if the person to whom it is directed cannot be found.

The Post Office is not responsible for any injury which books or other articles forwarded by post may sustain; and the public therefore should not employ the Post Office for the conveyance of anything likely to suffer injury in transit. Neither is the Department responsible for any loss or inconvenience which may arise from the mis-sending, mis-delivery, loss, etc. of a letter or any other postal packet.

Any person who on receiving a surcharged letter has reason to think that the letter has been wrongly taxed, should take it, *before it has been opened*, to a post office to be weighed, and should have its exact weight certified in writing at the post office. This will in most cases be sufficient evidence that the letter has been erroneously charged, though sometimes, owing to the paper being damp when it is posted, a packet weighs more then than when it is delivered; and it is the weight at the time of posting that determines the charge.

THE STANDARD LIFE ASSURANCE COMPANY,

Continued.

THIS COMPANY was established at Edinburgh in 1825. The Acts of Parliament, 2d and 3d Gul. IV. cap. 81, and 8th and 9th Vict. cap. 75, also the 22d and 23d Vict. cap. 27, have been granted for the purpose of its constitution, and for the regulation of its affairs. It has been conducted with much success, which may be attributed not only to its extensive and influential connections, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connection with the contract of Life Assurance. THE TOTAL SUMS ASSURED now amount to upwards of SIXTEEN MILLIONS Sterling. The COMPANY'S INCOME, which is rapidly increasing, is upwards of SEVEN HUNDRED THOUSAND POUNDS Sterling per annum. THE ACCUMULATED FUND, which is upwards of FOUR MILLIONS Sterling, is invested in Government Securities; Loans on the Security of Land, by Bond and Mortgage; Landed Property; Advances to the Company's Policy-holders, and other undoubted Securities.

LIFE DEPARTMENT.

THE Rates of Premium have been adjusted in accordance with a long experience, and bear equitably on all ages.

The Accumulated Premiums are over £1,650,000; and a Statement showing how these are invested can be had.

The sum of over £5,119,600 has been paid during the existence of the Office for Claims under Life Policies, of which amount a very considerable part was for Bonuses.

The next BONUS Valuation will be made up to Christmas 1874, and Policies then in force will participate therein in proportion to the time they may have been in force.

FIRE DEPARTMENT.

This Company undertakes the Assurance of almost every species of Property in the United Kingdom, at rates of Premium and upon principles which will be found quite as advantageous to the interests of the Assured as those offered by any other. The Directors can confidently refer to the well-known character of the Company for liberality and promptitude in the discharge of Claims made upon it during the many years it has been established.

Mills, Manufactories, Distilleries, Warehouses, Stores, Ships Building, Ships in Harbour, Houses, Furniture, Stocks-in-Trade, etc., Assured for the year or any shorter period.

The Policies of this Company cover Losses occasioned by the Explosion of Gas. Losses occasioned by Lightning will also be paid.

The FIRE DUTY being wholly abolished, even the least Hazardous Property ought now in every case to be Assured, and existing Assurances can be increased without increasing the cost hitherto paid.

Tables of Rates, Forms of Proposal, and any information needful to effect Life or Fire Assurances, may be obtained on application to the Office, 92 Cheapside, London; or to any of the Company's Agents.

PRINCIPAL FEATURES AND SYSTEM OF BUSINESS.

Policy-holders on the ordinary Profit Scale may have their share of the Bonus so applied as to render the **Sum Assured payable during Lifetime.** A Policy thus becomes a means of Subsistence in **Old Age,** as well as a family provision in the event of early death.

Indisputable Whole-World Policies are granted free from all conditions as to Travel, Residence, or Occupation. Specimen copies of these documents may be had on application.

After four years' Premiums have been paid, a fair cash value is allowed for the surrender of all ordinary Policies.

Policy-holders can at all times promptly have permanent Advances to the extent of the surrender value of their Policies on the security thereof, no charge being made beyond interest and stamp.

After five years' membership, an annual Premium may be suspended at interest during convenience.

MODERATE RATES of Premium, based on an equitable system of Assessment.

PROMPT SETTLEMENT OF CLAIMS.—The Directors, being gentlemen largely engaged in commerce, take a liberal and business-like view of all questions coming before them.

ALL POLICIES are issued FREE OF DUTY, and no Fees or Stamps are charged.

LIFE DEPARTMENT.

Actuary—W. P. PATTISON, ESQ. *Manager*—T. E. YOUNG, ESQ.

NEW FEATURES.

SETTLEMENT POLICIES are issued under the Married Women's Property Act, 1870, and form a Family Trust Fund, without the expense and difficulty attendant upon ordinary settlements.

LIMITED PAYMENT POLICIES are granted which cannot be forfeited. When the Premiums under Whole Life Policies are payable in ten payments, each Premium secures absolutely a Paid-up Policy for one-tenth of the Sum Assured.

SECURITY AND PRINCIPLES OF MANAGEMENT.

The Life Funds, exceeding £240,000, are held in special trust for Life Policy-holders, who have in addition the security of the Uncalled Capital of £2,250,000, and the General Assets of the Company, which exceed £630,000.

The Expenses of Management are guaranteed by Deed of Settlement not to exceed 10 per cent. per annum on the Premium Income.

The rate of Mortality assumed at the Valuation of 1867 was the 'Experience' Table, which requires a larger reserve to be made than any other Table in general use; the rate of Interest assumed was only 3 per cent., thus leaving a large margin for profit; and the net or risk Premiums were alone taken into account, leaving a further margin for expenses and profit.

The following are Examples of BONUSES declared on the 31st December 1867 upon Policies effected in 1863:—

Age at Entry.	Sum Assured.	Bonus Added.	Annual Premium.	Yearly Rate of Bonus per cent. on Sum Assured.	Percentage of Bonus on Total Premiums Paid.
20	£1000	£100	£19 8 4	£2 0 0	£103 0 0

FIRE INSURANCE.

INSURANCE COMPANY OF SCOTLAND.

INSTITUTED 1821.

OFFICE: 95 GEORGE STREET, EDINBURGH.

THE Directors beg to call the attention of those who are not insured, to the very small annual charge at which this Security can be obtained.

This Company has been established for upwards of Forty Years, and is prepared to offer the greatest facilities in connection with Fire Insurances.

The Policy-holders of the Company enjoy the following important advantages:—

COMPLETE SECURITY.
MODERATE RATES OF PREMIUM.
PROMPT SETTLEMENT OF LOSSES.
LOSSES FROM FIRE BY LIGHTNING MADE GOOD.
LOSSES BY EXPLOSION OF GAS WITHIN THE BUILDING INSURED ARE PAID.
INSURANCES FOR SEVEN YEARS CHARGED FOR SIX YEARS ONLY.
NO CHARGE MADE FOR POLICIES.

Copies of Prospectuses and Forms of Proposal may be obtained at the Head Office and from the Company's Agents.

THE PROVIDENT CLERKS' AND GENERAL GUARANTEE ASSOCIATION (LIMITED).

HEAD OFFICES: 15 Moorgate Street, London.
SCOTTISH BRANCH: 3 North St. Andrew Street, Edinburgh.

Subscribed Capital—£100,000. Paid-up Capital—£35,000.
(*Liable for Guarantee Claims solely.*)

THIS is now the only Society empowered by Act of Parliament, 30 and 31 Vict. cap. 108, to grant Guarantees for all departments of the Public Service. The Association is also prepared to issue Commercial Bonds of all descriptions.

Transfers can be made without trouble and expense, and a liberal Allowance will be made for the unexpired terms of existing Policies with other Companies.

The following Advantages are offered by the Society:—*Firstly*, by combining Life Assurance with Guarantee, a Large Reduction is made from the Guarantee Premium; and, *secondly*, making a Periodical Reduction on the Premiums charged, based upon the following Scale:—

After 5 years, a Reduction of 20 per cent.
" 12 " " 50 "
" 18 " " 75 "

For further information apply to the Secretary, at 15 Moorgate Street, London; or at the Edinburgh Office.

CLAIMS and CASH BONUSES paid,	£1,843,375.
INCOME for 1871, ...	306,715.
FUNDS on hand in 1871, . . .	1,350,000.

BONUSES FROM PROFITS.

ASSURERS have the choice of two separate classes of Assurance,—distinctive mainly in the systems of allocating the Profits, and which in several respects are peculiar to the LIFE ASSOCIATION. Thus:

The Expense of Life Assurance is much diminished by the Bonus System in CLASS A.

The Cash Bonuses are allocated *every year* to Policy-holders of five years' standing who have paid six years' premiums, and are applied in part payment of the next due premiums. The Bonuses thus virtually become

A Life Annuity to the Policy-holder.

The Original Outlay required for a Policy has thereby, after the sixth year's payment, been reduced to 25, 30, or 37½ per cent. less than the usual amount, according to the dates of the Policies.

This very Important Saving

to the Policy-holder in no way affects the Sum Assured, and he is thus enabled to take a considerably larger Assurance at first than he would otherwise adopt; or, if he continue eligible, he may afterwards, by means of the Cash Bonuses, effect Additional Assurances.

The Bonus in any year may, of course, be greater or less than formerly, or it may be of the same amount as in past years.

In CLASS B. *the* BONUSES *are* ADDITIONS *to the Sums Assured, and available as a* PROVISION FOR OLD AGE.

The System, it is believed, is peculiar to the LIFE ASSOCIATION OF SCOTLAND, and the results are such, that instead of being an Expense and Burden, the Assurance becomes a source of

Income to the Policy-holder

in the after-period of his life, the Sum Assured remaining untouched for payment at death to his representatives.

The PROFITS are allocated every five years in the form of Additions to the Sums Assured. Further, they are not frittered away in the usual comparatively small Bonuses to all the Assured, whether dying early or late, but are reserved for those who do not die before the average period. At each of the Divisions of Profits in 1865 and 1870, the Bonus declared for every year's premium paid on a Policy was £4 per £100, or £40 per £1000, and payable with the Sum Assured, in the event of the Policy-holder attaining the average period of persons of the same age. Further, the Bonuses may be exchanged at the average period of life for a Cash Payment or a Life Annuity to the Policy-holder himself,—the Sum Assured, as well as future Bonuses, remaining intact.

NON-FORFEITABLE PREMIUM SYSTEM,

(*Which this Institution was the first to introduce into this Country*).

By this plan the whole Sum Assured is payable at the death of the person named, whenever it may happen, but the premiums are payable only during **10, 15, 20,** or **30** years (as may be agreed on), if he live so long.

Further, should the Policy-holder discontinue the Assurance at any time after two payments, he will receive, in exchange, a Paid-up Policy for as many 10ths, 15ths, 20ths, or 30ths of the original Policy as he has paid premiums. The great advantages of this system are obvious. By each payment (after the first), the Policy-holder secures *unfailingly and finally* a proportionate part of the Policy, whether or not he elect to go on with the remaining payments. He is thus *completely protected against loss of Premiums, if from omission, inability, or any other cause, he discontinue the payments for his Policy.* Such Policies are therefore unusually valuable; and when taken in Class B., in which there are no restrictions as to occupation or residence, they are really Absolute Bonds for the Sums Assured payable on death,—not liable, like ordinary Assurances, to be lost or affected by any act or omission, or by the manner or cause of death.

A Statement of the Company's Liabilities under its Life Policies, and a detailed Account of the Investments constituting the Reserve Fund, as at the 31st December 1867 (the close of the last Quinquennial period), may be had on appplication.

PROGRESS OF THE COMPANY.

The progress of the Company is displayed in the following Comparative Statement of New Life Business and Life Premiums for the last two Quinquennial periods:—

PERIOD.	No. of Policies issued.	Amount Assured.	Total Annual Premiums.
Five Years 1863-67, . . .	3616	£1,016,700	£199,262
Five Years 1858-62, ...	2209	538,386	137,304
Excess in favour of the present Quinquennium, ...	1407	£478,314	£61,958

LIFE DEPARTMENT.—FOUR-FIFTHS of the PROFITS are divisible amongst Assurers on the Participating Table.

Assurances are effected on Participating and Non-Participating Tables, on Ascending and Descending Scales, for Short Periods, and by Policies payable at the ages of 65, 60, 55, or 50, or previously in the event of death.

The New Life Business of the year 1870 was 783 Policies, assuring £319,896, yielding £11,494 of Premiums, being larger than any previous year's business.

In the case of an Assurance for the Whole of Life, £250 and upwards, half of the Premiums for five years, or one-third of the Premiums for the Whole of Life, may remain as a debt on the Policy.

FIRE DEPARTMENT.—Policies are granted on almost every description of Property, on liberal terms. No expense is attendant on Transfers of Policies from other Offices. Losses are paid immediately on proof. Losses by Explosion of Gas are made good by the Company.

LOAN DEPARTMENT.—Loans from £50 to £1000, on personal security, with Life Assurance, repayable by instalments.

LIFE ASSURANCE SOCIETY.

HEAD OFFICE : 9 ST. ANDREW SQUARE, EDINBURGH.

Accumulated Fund exceeds Five Millions.

IT is very important that those who purpose availing themselves of the advantages offered by Life Assurance, should make a thorough examination of the real position and prospects of the Office inviting their confidence, keeping in view the two main points for consideration :

Unquestionable Security ; and
As large Profits as the System of Life Assurance admits.

The published Statements of this Society afford the means of a close and critical examination of its affairs, and include the following :

1. **Balance Sheet.**
2. **Full Table of Bonuses.**
3. **Revenue Account.**
4. **Full Table of Surrender Values.**

Since 1815,

POLICIES have been issued for TWENTY MILLIONS;

AND IT IS MOST IMPORTANT TO OBSERVE

That this great Business is not the result of amalgamation with other Offices, but has been obtained by direct transaction with Individual Members, whose eligibility has in every case been tested by Medical Examination, and approved of by the Directors.

In the Year 1871 the Amount of New Sums Assured considerably exceeded

FIRE.

THIS Company undertakes the Insurance of almost every species of Property, at Home and Abroad, at Rates of Premium as advantageous to the interests of the Insured as those offered by any other Office.

LIFE.

The Life Tables are framed upon as Moderate Rates as are consistent with Perfect Security. Assurances may be effected either with or without Participation in Profits, the Investigation being made Quinquennially.

Participation Policy-holders are entitled to a Share in the Profits to the extent of Nine-Tenths, or Ninety per Cent., both of the Participation and Non-Participation Branches.

W. W. W. REID, *Manager.*

THE ADVANTAGES, as compared with other Offices, are:

A greatly Larger Original Assurance for the same Premium, with the Prospect, to good Lives (for whom exclusively the whole Profits are reserved), of eventually receiving very considerable additions.

Thus, a Policy for £1200 or £1250 can in most cases be had, *from the first*, for the Premium charged elsewhere for £1000 only. Policies for £1000 which have shared at three Investigations have been increased to £1400, £1600, and even to £1800.

Examples of Annual Premium for £100 at Death, with Profits.

AGE.	25	30	35	40	45	50
Payable during Life, .	£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7
Limited to 21 Payments,	£2 12 6	£2 15 4	£3 0 2	£3 7 5	£3 17 6	£4 12 1

Thus, a person of 30 may secure £1000 at death, with Profits, for a yearly payment of £20, 15s., which in the other Scottish Mutual Offices would secure £800 only.

To PROFESSIONAL MEN or others whose income depends on the continuance of health, the system of Assurance is recommended by which the Premiums are limited to a specified number. At age 40, the Premium, *ceasing at age* 60, is, for £1000, £33, 14s. 2d., being about the same as these other Offices require during the whole of life.

BUSINESS OF 1871.

The DIRECTORS' REPORT, submitted to the Annual Meeting on 27th March 1871, showed that the Institution had shared in the general prosperity of the country, the new Business having been greater than in any former year.

The PROPOSALS accepted and carried out were 1336, assuring £713,045. The New Premiums were £23,243, 10s. 10d., of which £20,992, 9s. 3d. by yearly payments; while a further sum of £4751, 2s. 3d. was received as the price of Annuities.

The ACCUMULATED FUNDS are close on *Two Millions Sterling*, the increase last year having been £137,000. Notwithstanding the low rates, no Office of the same age has so large a Fund, or shows so large a yearly increase.

Copies of the ANNUAL REPORT, and full information, on application.

THE Advantages offered by this Company are Perfect Security, Moderate Rates of Premium, Special Bonus Advantages, and Very Liberal Conditions of Assurance.

At the last Investigation made 31*st March* 1871, *the Bonus Additions*, for Seven Years only, *added to Policies for* £1000, *ranged from about* £65 *to upwards of* £400, *according to the Age attained. Policies which have participated at several Investigations have thus been in many instances doubled in amount. It is worthy of notice, that these successful results have been attained in connection with Rates of Premium which will bear favourable comparison with those of many other Offices.*

Claims are payable Three Months after proof of death has been submitted to the Directors. Many Offices defer payment for Six Months.

This Company undertakes LIFE business only, and it is therefore free from the risks attaching to Fire or Marine Insurance business.

Copies of last Balance Sheet, and all requisite information, will be furnished on application at the Head Office, or at any of the Branch Offices or Agencies of the Company.

FINANCIAL POSITION OF THE COMPANY.

Sum Assured and Bonus Additions . .	£3,007,431
Annual Revenue	145,170
Invested in Real and Government Securities .	1,244,085

Besides the Guarantee of a large Wealthy Proprietary.

LAST BONUS DECLARED, 1868.

The following are Examples of the BONUSES declared for the Seven Years ending 1st July 1868, on Policies of 28 years' standing, effected at the under-mentioned ages, for £1000 each:—

Age when Assured.	Premiums paid in Seven Years.	Bonus in Cash.	Percentage on 7 Premiums.	Bonus in Reversion.†	Percentage on 7 Premiums.
	£ s. d.	£ s. d.		£ s. d.	
20	137 7 6	51 14 11	37·7	87 0 0	63·4
*30	176 3 4	66 7 2	37·7	98 0 0	55·7
40	232 9 2	87 11 3	37·7	114 10 0	49·3

60	445 13 4	167 17 6	37·7	181 0 0	40·6

* EXAMPLE.—A person aged THIRTY at entry, who twenty-eight years ago assured his life for £1000, and has already received Bonus additions in 1847, 1854, and 1861, now becomes entitled to a FURTHER Bonus on the Premiums paid during the past Seven Years, amounting in CASH to £66, 7s. 2d., being upwards of THIRTY-SEVEN per cent. of the Premiums paid in that period:

Or, a further Addition can be made to the Sum Assured, PAYABLE at DEATH, of £98, being more than FIFTY-FIVE per cent. of the Seven Years' Premiums.

† These Reversionary additions vary from £1, 5s. to £2, 11s. 8d. per cent. per annum on the Sum Assured, and give an average of more than £1, 15s. per cent. per annum on the Sum Assured at all ages. The Bonus, if desired, can be applied in the reduction of the future yearly Premiums.

INDISPUTABLE.

In order to remove any apprehension that might be entertained as to the PERFECT SECURITY *of the Policies granted by the* PELICAN LIFE OFFICE, *the Directors have omitted every Clause that would render them void by reason of any error in the Statements made by the Assured before or at the time of effecting an Insurance.*

Great advantages are derived by the Assured, on Joint Lives, Limited Payments, Old Lives, and Survivorships and other contingencies.—See Table of Rates, by application at the Office.

INSURANCES TAKEN FROM £100 TO THE EXTENT OF £10,000 ON A SINGLE LIFE.

LOANS granted on approved Security, coupled with one or more Policies of Insurance, to be effected in the PELICAN OFFICE for at least double the amount of the sum sought to be borrowed.

DEPOSITS AND DEBENTURES.

THE Association receives Money on Deposit or Debenture Bond, at Rates varyin from 3 to 4½ per cent., according to the market value of money at the time. I preferred, a uniform Rate of Interest will be given on Deposits for fixed periods of fro one to five years, on terms to be arranged. The Debenture Bonds will be granted fc three, five, or seven years.

SAFETY OF DEPOSITS AND DEBENTURES.

The Association lends its Funds on Heritable Property *only*, and at rates correspon ing to the market value of money. All the Loans are repayable by instalments, whic adds greatly to their safety, any depreciation which might take place in the value of tl security being more than met by the gradual diminution of the Loan. The risk arisin from the Investments of the Company is thus small, and comparatively high rates can th be given for Deposits. In addition to the fact that the Loans are all secured on Heritab Property *only*, Depositors have the *further guarantee of the Company's large Subscribe Capital.*

LOANS.

Loans are granted on Security of Land, Houses, and every description of Heritab Property.

The Loans are repayable in periods of from four to sixteen years. If desired, *part on* may be made repayable by instalments—the remainder bearing interest, payable hal yearly.

Borrowers can pay off their Loans at any time, either in whole or in part, or the peric of repayment can be altered to one more suitable.

For further particulars, apply at the

76 GEORGE STREET, EDINBURGH.

THE LANDS IMPROVEMENT COMPANY.

Incorporated by Act of Parliament.

3 PARLIAMENT STREET, LONDON, S.W.

To Landowners, the Clergy, Solicitors, Estate Agents, Surveyors, etc.

THE COMPANY ADVANCE MONEY, UNLIMITED IN AMOUNT, for the following Works, the *whole* Outlay and Expenses being liquidated by a Rent-Charge for a term varying rom Fourteen to Twenty-five years, according to the desire of the Applicant:—

1. **THE DRAINAGE OF LAND,** and the Improvement of the Drains, Streams, and Water-courses of any Land.
2. The Irrigation and Warping of Land.
3. The Embanking of Land from the Sea or Tidal Waters, or from Lakes, Rivers, or Streams, in a permanent manner.
4. **THE ENCLOSING OF LAND.**
5. The Reclamation of Land.
6. The making of permanent Farm-roads and permanent Tramways, and Railways for Agricultural or Farming purposes.
7. The Clearing of Land.
8. **THE ERECTION OF FARMHOUSES,** and other Buildings required for Farm purposes, and the Improvement of and Additions to Farmhouses and other Buildings for Farm purposes already erected, so as such Improvements or Additions be of a permanent nature.
9. The Planting for Shelter, or for any beneficial purpose, which will increase the permanent value of the Land.
10. The Constructing or Erecting of any Engine-houses, Water-wheels, Saw and other Mills, Kilns, Shafts, Wells, Tanks, Reservoirs, Dams, Leads, Pipes, Conduits, Water-courses, Bridges, Weirs, Sluices, Floodgates, and Hatches, for Agricultural or Farming purposes.
11. The Erecting of any Engines or Machinery of a permanent nature, so as the same be erected in connection with and in the effecting of any Works of or Improvements in Drainage or Irrigation.
12. The Construction or Improvement of Jetties or Landing-places on the Sea Coast, or on the banks of Navigable Rivers or Lakes, for the transport of Cattle, Sheep, and other Agricultural Stock and Produce, and of Lime, Manure, and other articles and things for Agricultural and Farming purposes. .

The large Agricultural Powers of the Company's Acts comprise all which can be required y the most improving Proprietor or Tenant; and the privilege offered to two or more Land-wners, of combining in an Application for the Execution of Works mutually beneficial—such as common outfall, etc., road or railway—is undoubtedly worthy of attention.

The Company have power to make Contracts with all Public Bodies who have Parlia-ıentary authority to execute Works and levy Rates.

The Company being of a strictly financial character, do not interfere with the Plans and xecution of the Works, which are controlled only by the Government Enclosure Commissioners.

Under the Company's Acts, HEIRS OF ENTAIL, Liferenters, Trustees, Tutors, Curators, Bodies orporate, and other Landowners with limited powers, as well as Fee-simple Proprietors, can harge their Estates, and *Clergymen their Glebes,* with the *whole* cost of the above Improvements.

The attention of Proprietors of ENTAILED ESTATES is specially directed to the advantages fered by the Company, as being greatly preferable to the cumbrous system under the Entail cts, and the Works authorized are much more extensive.

The RENT-CHARGE for 25 years, to repay *capital* and *interest,* is £6, 14s. per cent. per annum.

For further information, and for Forms of Application, apply to GRANVILLE R. RYDER, Esq., Managing Director, No. 3 Parliament Street, London, S.W.; or to

Messrs. HOPE & MACKAY, W.S., 119 Princes Street, Edinburgh, the Company's Agents for Scotland.

THE CASSIOBURY FIRE EXTINGUISHER.

THIS simple, portable, and efficient Fire Engine has been specially designed for prompt application on the outbreak of Fire. It is intended that it should always be kept ready charged, for moving to any part upon the floor or building, where Fire may originate, and its advantages are so palpable that they need hardly be dilated upon.

The great advantage of the CASSIOBURY Engine is, that it can be immediately brought to bear on any point with remarkable effect and precision, and it will deliver a good volume of water 40 feet high, or 50 feet horizontally.

Designed for the Right Hon. the Earl of Essex.

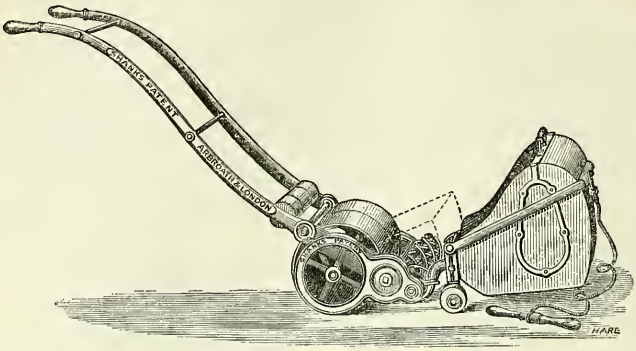
SHANKS'S NEW PATENT LAWN MOWERS.

Under the Patronage of her most Gracious Majesty the Queen, and most of the Nobility of Great Britain.



ALEXANDER SHANKS & SON desire to draw attention to the various points of merit which their New Machine possesses over all others. These advantages have only to be known, to ensure the success and to establish more firmly than ever the position of

Shanks's Machine as unquestionably the Best and Cheapest Lawn Mower in Use.

1. SHANKS'S PATENT LAWN MOWERS have been entirely remodelled for the Season of 1871. Every conceivable alteration has been made tending to improvement, and in reducing friction to a minimum.
2. SHANKS'S PATENT LAWN MOWER is fitted with a double-edged Sole-Plate. This Sole-Plate enables the cutting parts to last twice as long as those in other Lawn Mowers.
3. SHANKS'S PATENT LAWN MOWER is fitted with a Self-Sharpening Revolving Cutter.
4. SHANKS'S PATENT LAWN MOWER is fitted with a Wind-Guard, which prevents the Grass escaping the Box when the Machine is in use during the prevalence of Wind.
5. SHANKS'S PATENT LAWN MOWER has no obstruction in front of the cutter,—a most important improvement just introduced.
6. SHANKS'S PATENT LAWN MOWERS are made of the very best material, carefully apportioned so that no part has more weight than is absolutely necessary, and securing at the same time the greatest rigidity as a whole.
7. SHANKS'S PATENT LAWN MOWERS are more easily worked and more durable than any other Lawn Mower, and are not at all liable to get out of order.
8. SHANKS'S PATENT LAWN MOWERS are silent in working.
9. SHANKS'S PATENT LAWN MOWERS perform their work in a manner vastly superior to the Scythe. The Lawn is not 'ribbed' when cut, but has a most beautiful appearance, being as smooth as Velvet.
10. SHANKS'S PATENT LAWN MOWER has not only obtained more Prizes and Medals than any other, but the Highest Prize that has ever been given for a Lawn Mower at an International Exhibition was awarded to A. S. & Son, who received a First Prize Silver Medal for their Machine at the Paris Exhibition of 1867. It is significant that no other exhibitor received a Prize, not even an 'Honourable Mention' or a 'Bronze Medal.'
11. SHANKS'S PATENT LAWN MOWERS are warranted to give ample satisfaction, and if not approved of can be at once returned.
12. SHANKS'S PATENT LAWN MOWERS are Delivered Free to any Railway Station or Shipping Port in Great Britain. Orders are executed on the day they are received.

PRICES FROM 50s. UPWARDS.

SHANKS'S IMPROVED WROUGHT-IRON BOILER.

This BOILER, for heating by Hot Water, is made entirely of Wrought Iron, thus effectually preventing breakage from expansion and contraction of the metal. It is fitted with Tubes placed in the Fire-box, by which arrangement a very large effective surface is obtained.

Illustrated Circulars, with Prices, may be had on application. Plans and Estimates for heating, by Hot Water, Vineries, Greenhouses, Entrance Halls, Churches, etc., will be forwarded on application. A. S. & SON have special facilities for undertaking this class of work, and in all cases guarantee a satisfactory working Apparatus at a Moderate Cost. Plans and Estimates for Horticultural Buildings, in either Iron or Wood, forwarded on application.

PARIS—97 BOULEVARD SEBASTOPOL. | **LONDON**—116 CHEAPSIDE.

THE ECONOMICAL FUNERAL AND UNDERTAKING ESTABLISHMENT.

A. NICHOLSON & CO.,

(*From the late Firm of D. Nicholson & Son*, 8 *High Street*),

BEG leave respectfully to intimate to their Friends, and the Public generally, that they have opened the above Establishment,

14 ST. MARY STREET,

as the ECONOMICAL FUNERAL AND UNDERTAKING ESTABLISHMENT, where, by having in Stock every requisite in connection with the complete preparation for and conducting of

FUNERALS,

by the finish and style of their Workmanship, combined with the Lowness and Moderation of their Charges, together with their experience in all the branches and departments of the Business, and by strict attention and punctuality in attending to all Orders with which they may be entrusted, they hope to be favoured with that share of public patronage and support which was so liberally bestowed upon the late Firm of D. Nicholson & Son, and which it will now be their object and ambition to deserve.

GLENFIELD STARCH

IS THE ONLY KIND USED IN HER MAJESTY'S LAUNDRY.

IF THERE ARE ANY LADIES who have not yet used the **GLENFIELD STARCH**, they are respectfully solicited to give it a trial, and carefully follow out the directions printed on every package; and if this is done,

They will say, like the Queen's Laundress, it is the finest STARCH they ever used.

When you ask for GLENFIELD STARCH, see that the name
ROBERT WOTHERSPOON & CO. IS ON EVERY PACKET,
TO IMITATE WHICH IS FELONY.

NORTH BRITISH AGRICULTURIST,

PUBLISHED EVERY WEDNESDAY AFTERNOON,

AT 377 HIGH STREET, EDINBURGH.

THE *NORTH BRITISH AGRICULTURIST*, established in 1843 (the only Agricultural Journal printed and published in Scotland), is Published every Wednesday Afternoon, immediately after the Edinburgh Markets, in time for the Evening Mails; and the terms of Subscription are as follow:—

ONE YEAR, FREE BY POST, ...	£0 14 0
Do. do. WITH NEWS SUPPLEMENT, ...	0 18 0

AGRICULTURE.—The *Agriculturist* is devoted to the interests of Agriculture, both practical and scientific. It contains leading articles on the Cultivation of the Cereal and Root Crops, the Breeding and Fattening of Stock, the Treatment of the Domestic Animals in Health and Disease, Agricultural Statistics, and Political Questions connected with Agriculture. The Editors also answer all queries relating to these subjects which Subscribers may from time to time find it desirable to have solved. The Meetings and Exhibitions of the National Agricultural Societies, Chambers of Agriculture, and Farmers' Associations are carefully reported, and the latest improvements in Implements of Husbandry and Farming operations recorded.

VETERINARY DEPARTMENT.—This department is conducted by an eminent Veterinary Surgeon, and contains, besides leading articles on Veterinary subjects, Answers to Correspondents giving directions for the Treatment and Management of Animals when suffering from Disease. The thoroughly practical nature of the instructions given renders this department peculiarly valuable.

GARDENING.—The services of an excellent practical writer on Gardening have also been secured, and a column is devoted to the discussion of topics bearing on the profitable management of Farm and Cottage Gardens, with a Weekly Calendar of Operations, and directions as to the selection of Vegetable and Flower Seeds, Fruit Trees, and Bushes.

MARKETS, ETC.—The Market Report is the most complete of any paper published in Scotland, and contains, besides the Edinburgh Markets held on the day of publication, the London and Glasgow Markets, *specially telegraphed*, and the principal Markets held during the week throughout the United Kingdom; also a Weekly Review of the Corn Trade, specially written for the *Agriculturist*.

R. B. MOORE, Proprietor.

CALLANDER.

DREADNOUGHT HOTEL.

D. M'GOWAN, Proprietor.

THIS large and commodious Hotel, so long conducted by the late Mr. M'GREGOR, and which has recently undergone extensive alterations and improvements, is beautifully situated at the west end of the village, and commands a magnificent view of the Vale of Teith, Ben Ledi, and surrounding district, and is within a short distance of the Roman Camp, the Falls of Bracklin, Loch Vennachar, Loch Lubnaig, the Pass of Leny, Ben Ledi, etc. etc.

Tourists will find Callander very central for visiting those places mentioned in Sir Walter Scott's 'Lady of the Lake,' viz. the Lake of Monteith, Clachan of Aberfoyle, Loch Ard, the Trosachs, Loch Achray, Loch Katrine, Strathyre, Clachan of Balquhidder (where Rob Roy M'Gregor is buried), Loch Veil, Lochearnhead, etc. etc.

STAGE COACHES

in connection with this Hotel and Mr. BLAIR'S Hotel at the Trosachs run several times each day, to suit the arrival and departure of Trains at Callander and the Steamer on Loch Katrine.

Omnibuses run to and from each Train.

POSTING IN ALL ITS BRANCHES.

THOMAS' ROYAL OAK HOTEL, ALLOA.

ESTABLISHED 1833.

Commercial, Family, and Posting Establishment.

HANDSOME BILLIARD ROOM.

OMNIBUS TO AND FROM TRAINS AND STEAMERS.

THE IMPERIAL HOTEL,

GREAT MALVERN.

THIS Hotel contains upwards of one hundred Bed Rooms, Drawing Rooms, Bed and Dressing Rooms, and Closets, *en suite*, a Ladies' Coffee Room, a Gentlemen's Coffee Room, Table d'Hote, Reading and Billiard Rooms, etc. etc.

The building is surrounded by its own ornamental grounds, flower-gardens, lawns, and terraces, and commands unequalled views of the whole range of the Malvern Hills on one side, with expansive and charming valley scenery of Worcestershire, bounded by the Bredon and Cotswold Hills on the other.

Of Great Malvern—the salubrity of the air and the purity of the water, its invigorating effects in summer and winter, and the beauties of the place—it is superfluous to speak. As a Winter Residence, also, the dryness and high temperature of Malvern is shown by conclusive and trustworthy testimony, and is confirmed by comparative tables of winters in other localities.

To meet the wishes of numerous Visitors to the Hotel, the Proprietors have decided to take Ladies and Gentlemen as Boarders, during the season, on the terms stated in the tariff.

The new Stables belonging to the Company are now open, and comprise First-class Accommodation for Horses and Carriages. Carriages, Saddle-horses, and Flys may be had at the Hotel.

A covered way conducts the Visitor from the railway station to the Hotel.

Porters attend every train to convey Passengers' luggage to the Hotel.

PROSPECTUS.

THE objects of this Company are: the performance by Steam Power of the operations of Husbandry, of Carriage, and of Traction, and of other steam power operations.

In prosecution of these objects, the Company intends to acquire and let out Steam Engines, Tackling, Implements, and other Apparatus requisite for Ploughing, Grubbing, Harrowing, Rolling, Reaping, Leading, Thrashing, and the other operations of Husbandry, including the heavier Carriages of the Farm.

It is intended also to hire and employ Steam Power for heavy carriages at Mineral Fields, the Driving of Machinery, and other works now generally done by animal power.

The Capital of the Company is to be called up in instalments, according as the necessities of the Company require the money. Power is taken to the Shareholders to increase the capital—such increase to be allotted to the original Shareholders, so far as desired by them.

The Directors have no predilection for any existing system of Steam Cultivation over others, nor will they experiment, but they will avail themselves of every proved improvement. The soils of the country being various, they will endeavour to adopt the system in every district most suitable to its soil. At the outset they seek reliable information from the centres of agriculture, and will thereafter supply to each such steam power and implements as seem suitable and efficient for thoroughly working it, and only to increase the supply as the demand increases. It is contemplated ultimately to have Local Branches, with Manager and Local Board of Shareholders, for regulating all minor details in each district.

The charges for the Company's Power and Work must necessarily depend, to a considerable degree, on the nature of the soil to be cultivated, and of other operations undertaken. But, after due inquiry, a distinct specification of the implements at service and tariff of charges will be prepared and issued for each district where a depot has been established. The Directors feel assured that the tariff of charges can be fixed at a considerably less rate for work done by their engines than by horse power, while the work will be better done.

Prospectuses and Forms of Application for Shares may be obtained at the Bankers, Brokers, Solicitors, and at the Office of the Company; and Copies of the Memorandum and Articles of Association may be inspected, in the hands of

D. CURROR, *Secretary,*
At the Registered Office, India Buildings, Edinburgh.

WILLIAM MACKENZIE,

BUILDER AND ASPHALTER,

HOPE PARK END HOUSE, EDINBURGH,

RESPECTFULLY intimates that he executes every description of Asphalting, and is ready to furnish Estimates for the same, in Town or Country, on Moderate Terms.

ASPHALT FLOORING is highly recommended for Stables, Byres, Barns, Cattle Sheds, Granaries, Cottars' Houses, and all kinds of Farm Buildings, on account of its being the most effective preventative to the ascent and spread of Damp, its complete exclusion of Vermin, its neat and cleanly appearance, its durability and cheapness in comparison with other descriptions of flooring and pavement, and its healthy and disinfectant properties. While it effects a great saving, by the exclusion of rats and smaller vermin, owing to the close texture of the composition, without seam or joining, it keeps the Grain in a sweet state, from the entire absence of damp or moisture; and wherever the Asphalt Flooring has been used, it has fully realized all the benefits held out by its adoption.

CRAMERS' HARMONIUMS.

Cramer & Co. having engaged many of the best hands recently employed in the principal Paris Factories, have greatly extended their manufactory, and are prepared to supply every description of the ordinary Harmoniums, as well as any required of special design.

Cramer & Co. beg to direct special attention to one of their recently-patented inventions, viz., the "Petite Expression" stop, which produces with remarkable facility the most delicate *nuances* of Expression, and relieves the Instrument from the monotony of the ordinary tone.

PROSPECTUS

OF

MEDICINE CHESTS AND CASES,

PROPRIETARY,

AND MISCELLANEOUS ARTICLES.

The Homœopathic Medicines are prepared in several forms :—

GLOBULES, TINCTURES, PILULES, AND TRITURATIONS.

In ordering Medicines it ought always to be specified whether Globules, Tinctures, or Pilules, are required. Unless any particular potency is named, the 3d in the vegetable, and the 6th in the animal and mineral remedies will be sent.

POSTAGE STAMPS RECEIVED IN PAYMENT OF ACCOUNTS NOT EXCEEDING 10s.

GLOBULES OR PILULES

Are preferred for Cheapness, Safety, and Portability, and are generally found sufficiently energetic in the diseases which properly come under domestic treatment. They may be had either in single tubes or neat morocco cases, fitted up to correspond with the various Domestic Books on Homœopathy, and arranged to contain every medicine prescribed in each book. The advantage of this plan is, that if a book with chests to suit, is decided upon, there is no further trouble, as the chest contains the medicines mentioned in the book.

The following are the usual sizes of Chests and Cases containing the Globules, with the Works which they accompany :—

MOROCCO FOLDING CASES,

Containiug 84 tubes of Globules, accompanies Dr. Laurie's "Domestic Homœopathy," price 16s., or Dr. Herring's "Domestic Physician," price 8s.

Containing 72 tubes of Globules, is fitted up to accompany Dr. Pulte's "Domestic Physician," edited by Dr. Epps, price 7s. 6d. Also in Mahogany Chest, with larger tubes of Globules and 7 bottles Tinctures for external application.

Containing 60 tubes Globules, suited to Dr. Epps' "Domestic Homœopathy," price 5s.

Containing 44 tubes Globules, accompanies Dr. Laurie's "Epitome of Domestic Medicine," price 5s.

Containing 44 tubes Globules, accompanies "Guernsey's Domestic Physician," by Dr. Thomas, price 5s.

FLAT MOROCCO CASES.

Containing 36 tubes Globules, fitted to Dr. Chepmell's "Domestic Medicine," price 5s.

Containing 36 tubes Globules, fitted to "Kelly's Handbook," price 2s.

Containing 30 tubes Globules, fitted to Dr. Malan's "Pocket Book of Homœopathy," price 2s.

Containing 24 tubes Globules, fitted to Dr. Laurie's "Family Guide," price 1s.

Containing 12 tubes Globules, inclusive of Dr. Laurie's Guide to "Twelve Remedies," to which it is suited.

Cases to contain from 6 to 240 tubes can be had either made of leather or fancy wood. They are so portable that they can be sent as a parcel to any part of the kingdom.

Single tubes of Globules are 6d. and 1s. each., or free by post, 7d. and 1s. 2d.

THE DOSE OF GLOBULES.—The usual dose for an adult is four Globules; for an infant, two Globules.

THE TINCTURES

Are often preferred in acute diseases. They are sold in single bottles, and in mahogany, rosewood, and morocco chests, of almost every variety of size, containing from 6 to 300 medicines.

MAHOGANY OR FANCY WOOD CHESTS.

Containing 48 bottles Tinctures, price
Containing 36 bottles Tinctures, price
Containing 24 bottles Tinctures, price
Containing 12 bottles Tinctures, price
Containing 6 bottles Tinctures, price
Containing 6 External Remedies, price
Containing 3 External remedies, price

Single Phials at 6d. and 1s. each, or free by post, 8d. and 1s. 3d. each.

THE DOSE OF TINCTURE IS, for an adult, from half a drop to a drop; or from one-fourth to half a drop for a child. It is easy to divide a drop into any number of dozes, by mixing it with as many spoonfuls of water, and taking one spoonful for a dose.

How to drop the Tinctures.—The Tinctures may be easily dropped by placing the lip of the bottle on the cork, which must be held in a sloping direction; then gently tilt the bottle, when the Tincture will flow down the cork, and drop from the lower edge; thus a single drop, or any number of drops may be obtained.

PILULES.

Are larger than the Globules, and are very convenient for dispensing, many preferring them on that account.

MOROCCO CASES.

Containing 6 bottles Pilules. Containing 12 bottles Pilules.
Containing 18 bottles Pilules.

MOROCCO OR MAHOGANY.

Containing 24 bottles Pilules. Containing 30 bottles Pilules.
Similar in design to those used for Globules.

Single Phials of Pilules at 6d. and 1s. each sent post free on receipt of postage stamps for 8d. and 1s. 3d. each.

The dose is two Pilules for an adult, one Pilule for Children.

TRITURATIONS

Of the Animal and Mineral Remedies are kept up to the 3rd potency and may be had in bottles 6d., 1s., and 1s. 6d. each.

Two Pilule-spoonfuls is a dose for adults, one for children from 7 to 15 years, half for infants and children up to 7 years.

THE PRESERVATION OF THE MEDICINES.

The Homœopathic Medicines should be kept COOL and in the DARK, simply because exposure to heat or light is apt to injure them. In following out this precaution, they

ought not to be kept on a mantle-piece, or in a cupboard near a chimney, nor be exposed to the direct rays of the sun, or any strong light; it is also advisable not to expose them more than absolutely necessary to the ordinary daylight or gaslight, neither ought they to be exposed to dampness or odours of any kind. If these few precautions be attended to, the Medicines will keep good many years.

GENERAL DIRECTIONS FOR TAKING THE MEDICINES.

In acute diseases it is best to take the medicine dissolved in cold water—filtered. The same vessel ought never to be used for two different medicines, without being previously very carefully cleansed with both hot and cold water.

The use of metal spoons for stirring or measuring the medicine is very objectionable; procelain spoons are the best. If two medicines are taken in alternation, there MUST be a separate spoon for each. If the spoon is of metal, it must not on any account be left IN the medicine, but be carefully wiped after measuring each dose. The medicine ought to be taken not less than half an hour before or an hour after a meal.

Graduated Procelain Medicine Vessels, and Spoons to accompany them, have been prepared expressly for this purpose, and are sold by J. C. POTTAGE.

EXTERNAL REMEDIES FOR ACCIDENTS, &c.

The principal External Remedies are ARNICA, CALENDULA, AND RHUS TOX. The set of 3 Tinctures may be had in neat morocco cases, at 5s. 6d. and upwards, and may also be had in bottles from 1s. each with full directions for use.

HOMŒOPATHY IN VETERINARY PRACTICE

Has proved in numerous instances most efficacious in removing diseases that the brute creation are liable to, the enquirer is referred to works on the subject by Haycock, Rush, Gunther, Schæffer, Moore, and Gooday.

The Medicines are kept in every variety of form, and can be sent through the post to any locality at a very slight cost.

CONDENSED LIST OF
PROPRIETARY AND MISCELLANEOUS ARTICLES.

POTTAGE'S HOMŒOPATHIC COCOA.

Patronised and recommended by both the Homœopathic and Allopathic Faculties, unequalled in Quality and Flavour by any in use. It is prepared from the finest Cocoa Berries, by a process which renders the whole of their substance completely soluble, and so easy of digestion, that it is found to agree with the most delicate stomach.

*** This preparation is free from those elements which in other Cocoas are said to produce bilious derangement. Such is indispensable in an article so frequently used.

POTTAGE'S CHOCOLATE CREAMS,

Liqueurs, Almonds, and Oatmeals; Vanilla Cakes, Sticks and Drops. These Delightful Sweatmeats are nutritious and wholesome, and are greatly esteemed.

POTTAGE'S LACTOSACCHARINA,

Or Imperial Feeding Powder for Infants, a new food, analogous to Breast-Milk, either to be given in conjunction with the Breast as a relief to the Mother in case of defective Lactation, or for the sole rearing of infants by hand, whereby hereditary Taint will be prevented, and better structural and physical development of the Babe attained.

J. C. P. begs to call the special attention of Mothers and Nurses to his Paper on this subject, which accompanies each parcel, or may be had on application.

POTTAGE'S HOMŒOPATHIC COUGH LOZENGES.

These excellent Lozenges usually relieve ordinary Coughs and slight affections of the Throat, without the employment of medicine, or they may be used as an assistant and alleviator whilst taking medicine.

POTTAGE'S GLYCERINE JUJUBES.

Much recommended for their demulcent, soothing, and healing qualities, as also for their exceedingly delicate and grateful flavour.

HOMŒOPATHIC JUJUBES.

Plain and crystalised, Delectable, Magnum Bonum, Voice, Raspberry, Black Currant, Strawberry, Liquorice, &c., &c.

ARNICATED CORN PLASTER.

These are found very serviceable, the pain being soothed by the Arnica, while the Corn is defended from the pressure of the boot. Improved Corn Rubbers, 1s. each.

POTTAGE'S GLYCERINE AND ALMOND CREAM,

An Emollient for the hands and face, imparting to them clearness and softness. For the complexion it is invaluable, preventing chaps, roughness or injury by frost, wind, or exposure to the sun.

POTTAGE'S AROMATIC ELIXIR,

For the Teeth and Gums. A preparation having a remarkably invigorating effect on the Gums, rendering them speedily sound and healthy, where they have a tendency to become spongy and inflammatory, or preserving them against attacks of Neuralgia.

POTTAGE'S TOOTHACHE SPECIFIC.

Usually relieving the pain instantaneously, while safe and agreeable in use.

HOMŒOPATHIC,

Pearl, Odoriferous, and Soap Tooth Powders. Any of these unique Preparations imparts a pearly whitness to the teeth, preserves them from decay, prevents the formation of tartar, and promotes a firm and healthy condition of the Gums.

POTTAGE'S POMADES AND HAIR CREAMS

Are Preparations similar in qualities to the Hair Lotion, with the additional properties for fixing and beautifying the Hair. Sold in bottles and jars from 1s. to 5s. The 5s. jar is recommended for the Nursery.

SPONGIO PILINE.

A valuable substitute for Linseed Meal, or Bread Poultices, or for the application of all kinds of fomentations and cold lotions, being a most effective, clean, and comfortable mode of applying heat and moisture as a poultice.

ARNICATED AND CALENDULATED COURT PLASTERS.

These Plasters are the best before the public, being as adhesive as the India Rubber Plaster, with the advantage of possessing the valuable healing properties of Arnica or Calendula.

POTTAGE'S RESTORATIVE HAIR LOTION.

This elegant Toilette Preparation will be found of great value in at once Cleansing and Beautifying the Hair, removing all Scruf, Dandriff, etc. Its gentle stimulating properties, impart vigour and health to the roots, and effectually prevents premature decay. It is a cooling and refreshing application during the heat of summer and after crowded assemblies. This eminent preparation is one much recommended, having been found to be exceedingly valuable in giving stimulation to the roots of the Hair, which, from sickness or local debility, has begun to fall off. As a specific preventative of the Hair prematurely turning grey, by its nourishing qualities, it has always received high encomiums. This preparation has been extensively used for children as a cleansing and invigorating Lotion, producing early in youth a most beautiful and luxuriant head of hair. Sold in bottles at 1s., 1s. 6d., 2s. 6d., and 5s.

POTTAGE'S DIAMOND CEMENT.

For glass, earthenware, ivory, jewellery, wood, cardboard work, toys, marble, etc., etc., and every description of fancy work. It surpasses in neatness, in strength, in cheapness, and retains its virtue in all climates. This cement has stood the test of time, and in all quarters of the world. Its excellence has proved it invaluable to the Colonist, indispensable to the Emigrant, and a handy thing in every orderly household, rich or poor.

POTTAGE'S PREPARATION OF CAMPHOR.

For early stages of influenza, common cold, chilliness, and shivering, incipient stage of cholera, nervous prostration, fatigue, fainting and dizziness, cramp in the arms, legs, or abdomen, severe purging, etc., etc.

GAYETTY'S IMPROVED MEDICATED PAPER.

The origin of that distressing and almost universal complaint, the Piles, may nearly always be traced to the use of ordinary paper, especially *white*, in which analysis detects the presence of a large portion of poisonous chemicals, (Vitriol, Lime, Potash, etc.,) used for the purpose of bleaching all kinds of paper. Printer's Ink is also a *rank poison*, and a persistent use of printed paper is sure eventually to induce an aggravated stage of the above disease. The Inventor offers this paper as the only *pure* article ever made; the material used in its manufacture being a pearl-colored *hemp* or *grass*, and being thoroughly impregnated in its pulpy state with the best medicines known to be valuable in curing *Piles*, it acts as a gentle soothing tonic, and is *perfectly harmless to those in health.* This paper dissolves easily in water, and will not, like ordinary paper, *choke the water pipe.* 2s. 6d. per packet of 500 sheets.

BANKERS.

THE BANK OF SCOTLAND.

THE "SCOTTISH TRADE PROTECTION SOCIETY" is an Incorporation composed of Bankers, Merchants, and Traders, associated for the purposes of affording mutual protection, and preventing loss in business transactions, by obtaining reliable information as to the circumstances of parties who may propose to deal with them, by exposing fraudulent dealers, by recovering Debts with the least possible delay and expense, by investigating the circumstances connected with Bankruptcies, and private settlements of Debtors, and by using its influence to aid the amendment of the Laws affecting Trade and Commerce.

Since its formation in 1852, the "SCOTTISH TRADE PROTECTION SOCIETY" has been of much service, not only to its Members, but also to the Mercantile Community at large. Having numerous Correspondents in various parts of the World, its officers are enabled to give immediate information as to the movements of Swindlers, who are traced by them from place to place, under whatever disguise or *alias* they may assume.

As no individual Member has any personal interest in the Funds of the Society, these are wholly applied in furthering its objects, thus giving to Subscribers perfect security and greater advantage than can possibly be afforded by establishments carried on solely by private parties.

INFORMATION.

By co-operation with the principal Trade Protection Societies at home and abroad, and through its own private Correspondents in Great Britain and Ireland, the Society seeks to ascertain the standing and respectability of persons proposing to deal with Members, to enquire into business transactions where the circumstances are doubtful, and to remove groundless suspicion.

Four Postage Stamps must be sent with each inquiry out of Edinburgh.

Members are supplied with a Confidential Circular monthly. They may also obtain weekly or monthly Lists from the Publishers, at a reduced charge.

These Lists contain, so far as regards—

SCOTLAND.

Extracts from Register of Protested Bills, arranged under each County.
Decrees in Absence.—Sequestrations.
Trustees and Commissioners appointed.
Bankrupts to be examined, and other general Bankruptcy information.

ENGLAND AND IRELAND.

Bankruptcies.
Dividends payable under Bankruptcies.
Chancery Notices for Creditors to lodge Claims.
Bills of Sale, and Judgments. &c., &c., &c.

With Leading Articles on Mercantile Law.

The "*Monthly Report*" contains a vidimus of the transactions of the Society for the month, particulars of mercantile frauds, or attempted frauds, with names, autographs, and photographs of the perpetrators.

The Books of the Society kept at the Head Office contain most valuable information, which, for obvious reasons, cannot be published; *and it is of importance to bear in mind that the information thus afforded is always greatly in advance of that contained in any published document, because Debtors frequently retire their Bills and leave heavy open Accounts outstanding.* These Accounts being handed to the Society for collection, their Books exhibit the true circumstances of debtors long before any apparent evidence of embarrassment is made public.

DEPARTMENT FOR THE RECOVERY OF DEBT.

I.—CLAIMS NOT PROSECUTED.

Between November 1852 and 31st December 1871, **£158,927, 15s. 8d.** was collected *by applications*, and paid to Members *free of law charges.*

The terms on which this Department is conducted are the following:—

Each Member may, for the year's subscription, have *six* claims applied for by the Society's Officers, and the amount of any of these claims recovered will be paid over within a week without any deduction for commission. If, during the year, a Member send to the Society for collection *more* than six claims, these will also be applied for in the usual manner, the result communicated to the Member, and any sums recovered paid over to him, under deduction of the following commission:—

On Claims not exceeding £1, 7½ per cent; above £1 and not exceeding £5, 5 per cent; above £5 and not exceeding £10, 4 per cent; above £10 and not exceeding £30, 2½ per cent; above £30 and not exceeding £50, 2 per cent; above £50, 1 per cent.

The above commissions will be charged on all claims beyond six in number, as above explained, whether settled with the Society, or with the Members after application for payment by the Society.

Members, or Trustees on Bankrupt Estates, having numerous claims or debts of large amount for collection, may enter into special contracts with the Society.

To cover outlay, four postage stamps must be sent with each claim.

In the absence of special instructions, the Society's ordinary course of procedure is to make application requiring payment of the debt, within four days; if not settled, to make a second application, and allow other four days; on the expiry of that period, the result of the application is intimated to the Member, and no further proceedings will be adopted without instructions. Members may, however, give any directions they please with regard to the time to be allowed, or they may order legal proceedings to be at once adopted without intimation to the debtor. It is a condition that the Society undertakes no responsibility in regard to the recovery of debts, beyond being liable for the amount paid to them by the debtor.

All sums recovered are paid over on the first Wednesday after receipt, on being applied for; or on any following Wednesday. If not applied for, Cheques will be sent.

2.—PROSECUTED CASES.

CLAIMS NOT EXCEEDING £12 IN AMOUNT.

If the claim is not arranged on the application of the Society, proceedings may be adopted in the *Small Debt Courts* on instructions being received from the Member to that effect, when the claim will be transferred to agents with whom the Society have entered into arrangements to take charge of and prosecute to their final issue all claims under £12.

To meet outlay, a deposit of 4s. 6d. is required to be made when instructions are given to prosecute.

Charges in Prosecuted Cases.—Claims in the County of Edinburgh not exceeding £5 in amount, 7½ per cent. on the amount recovered. Above £5 and not exceeding £12, 5 per cent. on the amount recovered. Claims out of Edinburgh, 7½ per cent. on the amount recovered; if not recovered, 5 per cent. on the amount sued for, but in no case to be less than 5s. These charges in all cases are exclusive of outlay.

The Agents, not the Society, are directly responsible to Members employing them to prosecute Claims, but, for the convenience of Members, the sums recovered will be paid through the Society.

PROCEEDINGS IN THE SHERIFF, DEBTS RECOVERY, AND COUNTY COURTS.

When the Agents are instructed to adopt proceedings for the recovery of debt, the Member employing them becomes their private client.

The Society's Commission is 2½ per cent. on the amount recovered, but no Commission to exceed £1, 1s.

The Society has Law Agents in all the principal towns in Scotland, who will transact any business intrusted to them.

TRAVELLERS' CERTIFICATES.

Certificates, price 2s. 6d. each, which enable Commercial Travellers to call upon the Society's Agents throughout the country, are granted on application to the Manager. These have been found exceedingly useful by many Members of the Society.

SUBSCRIPTION.

The Annual Subscription to the Society, including the Weekly Lists, is			.. ..	£1	11	6
